

2021 DF65 & DF95 Travelling Trophy

By: John Goldsworthy

Saturday was DF65 day. Though the entry list was ever changing, it finally settling with 16 competitors. We managed to find some decent winds, blowing primarily from the east. Since there were only 16, they were not broken into two fleets, but all raced together. With this format, we managed to get in 15 races with three throw-outs.

When the scores were tallied, Tony Gonsalves from the Hollywood Florida Club took home the winning trophy. Bruce Farr took a second, Martin Gray third and Bill Wells rounded out the trophy winners with fourth place. Everyone seemed to have a good time and there were no formal protests. Linda and Françoise served some fine lunches. For an early February date, the weather was good to us with light breezes and warm temperatures. Complex regattas of this type would not be possible without the dedicated help of many volunteers both before and during race day.
