

2021 DF65 & DF95 Traveling Trophy

By: John Goldsworthy

Sunday was the day for the DF95 to race and since there were 25 entrants, skippers were divided into two fleets after the ceding races. Scoring was done via the HMS system. Though the winds were light, the RD set a rather long course, giving those whose start was late a chance to catch up. The line judge called for several general recalls, since it was difficult to identify the boat numbers when they're bunched together for the start. Also, a few of the boats got their keels caught on the ground tackle of the buoys – which was costly for their standings and kept our crash boat busy. Lunch was taken when your fleet was not on the water, sometimes making it difficult for the bubble boy. The scores reflect some very tight racing with one point separating first and second – and only seven points separating 4th through 7th.

2021 DF95 Traveling Trophy

Date: February 6, 2021

Location: Ashland Pond, The Villages, FL

Host Club: The Villages Model Yacht Squadron

Entries: 25
